

INSTALLER: THESE INSTRUCTIONS CONTAIN IMPORTANT SAFETY INFORMATION AND MUST BE FORWARDED TO THE BOAT OWNER.

Remote Control Cable Adapters

Part Number: 301074
For Use With Part Number: 032377 (Cables-Control End)

Installation

1. Remove jam nut, rod seal and sleeve seal from control end of cable and discard. (See Figure #1)
2. Slide cable adapter sleeve over end of cable. Align holes at end of sleeve with groove in cable hub and install retainer clip through holes (See Figure #2). Lock retainer clip in place by bending extended tab against the adapter sleeve.
3. Screw terminal onto cable rod end until threads are bottomed.
4. Install cables in control. For installation of shift and throttle cables into remote control, refer to instructions packaged with control unit.
